

# Hornets inclusive all-stars

Histon Hornets F.C are pleased to announce their new junior inclusive football sessions.

Following the success of our open age inclusive team joining us last season we are now launching two U16 session. Our aim is to provide a fun, safe space to play football.

Our 7-11 sessions will be focusing on skills, confidence, building friendships in a noncompetitive environment. Our 12-16 session will be focusing on all the above but also with the aim to create a team who can play against other similar teams in friendlies and hopefully a league.

We also can provide a pathway and opportunity for players to develop through their age banding and into our open age (16+ existing team). For players with a physical disability of any age, we can provide specific impairment opportunities and access to our regional England para talent ID hub.

## What is inclusive football?

Inclusive football is aimed at helping anyone who needs extra support to play the game. This could be due to a physical, neurological, SEN or wellbeing challenge. We believe football should be for all and work hard to break down any barriers players may face.

## When?

Our sessions will run every Wednesday from the 16th May, 6-7 pm

## Where?

Sessions will be held at Impington Village college, New road, Impington, Cambridge, CB24 9LX

## Who?

Sessions are open to anyone under the age of 16 who may need additional support.  
Cost: £3 per session

Our team of experienced FA coaches have a great depth of knowledge in inclusive and impairment specific football with our head of inclusion Zoe Harvey leading the sessions. For further information, register interest or to book a place please contact,
